# How To Win A Local Election

## Synopsis

More of a "must-do" book than a "how-to" book, *How to Win a Local Election* guides readers through the campaign process detailing what they need to accomplish along the way in order to be victorious. Here you will find information on planning and organizing a campaign; how to run as an independent candidate; the various roles of people in your campaign; campaign procedures and techniques; and how to use computers, the internet, and emails to both manipulate and disseminate data. The book also offers useful advice on issues from financial reporting to developing a campaign theme and strategy, how to win "one precinct at a time," and even offers tips on such fundamental tasks as the creation and placement of yardsigns and billboards. New to the third edition is a CD containing forms and data that will be the "starter kit" for your campaign: as sample campaign plan; and initial planning worksheet; a week-by-week campaign planning form; a nominating petition worksheet; a sample volunteer card; a directory of state elections officers and state codes; and instructions on how to work with databases.
