The 72 Names Of God: Technology For The Soul

Synopsis

The power of The 72 Names of God operates strictly on a soul level, not a physical one. It's about spirituality, not religiosity. Instead of being limited by the differences that divide people, the wisdom of the Names transcends humanity's age-old quarrels and belief systems to deal with one common bond that unifies all people and nations as one — the human soul.

Like the Bible, the Shemhamphrasch is public domain. Look up the Wikipedia def. and you see the 72 names of angels as well as demons. Under "angels and demons:" "Kabbalists and hermeticists have proposed correspondences between the 72 names of the Shemhamphorasch and a wide variety of other things, such as the Psalms, tarot cards, and so on. It is because of the flexibility (and numerical factorability) of the Shemhamphorasch that many ceremonial magicians consider it to be the key of creation of all things and all arts. The names have long been associated with 72 angels, as well as 72 demons..."Fortunately, this book only has angels. This is Yehuda's spin on each of God's 72 elementals based on God's Name. I have no idea if Rabbi Berg's spin on the 72 Names of God, actually applies, BUT the concepts he applies to each angel are completely useful for every kind of ailment. For example, the 72nd angel, or the lowest rep for heaven, begins with "MOUM" for spiritual cleansing. Spiritual cleansing is basic to accessing the upper "worlds," therefore I rec'd meditation with the 72nd angel first, then work your way up. Of course, you can skip around. I like to combine the scripts in this book with emotional freedom techniques, so I'm never at a loss for

words. You will never be at a loss for words either when meditating on self improvement and spiritual growth. Will it make you a ceremonial magician too? I don't have a clue, but it will help you chase away emotional "darkness" and give you strength.

I consider myself a rational, thinking, well-read individual. I've read a lot of self-helpish, new agey books, but I'm also quite experienced in the ancient, old world wisdoms as well. After reading the introductory pages ..., I was so impressed, astonished and moved that I had to buy this book. What I discovered in this book was an amazing revelation, and while it took three or four read-throughs before it really sunk in, no other book as so powerfully changed my life. Slowly but surely I am reversing the negative effects of time, stress, regret and ego on my life, and its all thanks to Yehuda Berg and his ability to share this wisdom.

This is one of the tools Kabbalah offers us, each of the 72 names is for a specific purpose. You meditate on the name or names (one at a time) that you feel you need, in the way the book explains. The names cannot be pronounced, as they are not words, but combinations of letters, so they really don't have a meaning, but each combination of letters has a different energy that helps us in the way that is described in each of the meditations!!! If you want to say any specific name you say the letters, for example Mem Hey Shin, which is the name for healing. The meditations are beautiful, very wise words by Yehuda Berg, that touch your heart and your soul!!! You can also scan the chart with the 72 names of God, in the way that is described in the book, once or twice a day.

Learn how to use an amazing spiritual technology which existed before time began. The three letter names activate neurological functions in your brain allowing you to automatically alter your behavior and your life to achieve anything your heart and soul desires! One of the best and most powerful Kabbalah books ever written. This book has all the names of the original "Technology for the Soul" book. It also has affirmations next to each name which allow you to better understand the purpose of each name and how to use the energy correctly. These phrases that you use along with the names will also increase the effectiveness of each name. Review by DREXAR the Warrior Author of The Vacation Diet[...]>

I had read this book before I got it on my kindle. It was so good and useful that I wanted it at my fingertips. It helps me to raise my spirituality; and tells me how to do it. I believe that it can help everyone. Aside from all of this, it is very interesting. One can take from it what is needed for you. I

recommend you to give this book a chance. You have nothing to lose.

A remarkable book. It presents, in this simple and concise, yet hip and modern guide, the origins of each name and, more importantly, how to apply in the struggles of everyday life. In finding a soul mate, to bring financial prosperity & to alleviate depression and illness.

This isn't what I expected but the chants are the simplest. There are other books that I need to get to go along with this one. I can't say I'm disappointed just not what I'd expected. These are however the powerful names of God!

Poorly written and really did not give much real information. The author rambled too much and tried, IMHO, to be somewhat cryptic. I'm sure he knows the subject, he did not convey this knowledge well at all. I have been studying Metaphysics for several years and there wasn't any new, usable information in this book, that I could find.
