The Preservation Management Handbook: A 21st-Century Guide For Libraries, Archives, And Museums

Synopsis

Cultural heritage professionals – museum curators, museum professionals, archivists and librarians – work with their specialized knowledge to prioritize the needs of their collections. Preservation managers draw on experts in climate control, fire safety, pest management and more in developing the large overview of a collection and its needs. And all the special materials within the collections have their experts too. Here, in one volume, is a wide range of topic-specific expertise that comprises both an enduring text for preservation students as well as an essential one-stop reference for cultural heritage professionals – particularly those in small- to medium sized organizations where resources are limited and professional help is not always at hand. The editors introduce the reader to the essential tools and principles of a preservation management program in the twenty-first century, addressing the realities of diverse collections and materials, and embracing the challenges of working with both analog and digital collections. The sections on planning and managing a preservation program contain the basic starting point for any kind of collection, regardless of size and content. Written with the small collection in mind, the principles are nevertheless scalable and widely applicable.

Book Information

Hardcover: 400 pages

Publisher: Rowman & Littlefield Publishers (April 10, 2014)

Language: English

ISBN-10: 0759123152

ISBN-13: 978-0759123151

Product Dimensions: 7.3 x 1.2 x 10.2 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)
