Decopedia Volume 1

Synopsis

This book has been written for use with the roleplaying game Traveller. It's designed to give the referee "drop ins" for their game. Each entry is separate and self contained so you can take it and squeeze it into your own game. Inside you will find, 10 planets, 10 alien animals, 10 people of interest, and 10 story seeds. The planet descriptions highlight cultural, political and religious elements that make the system interesting to visit, this isn't just a string of statistics. The animals are all designed to inspire or be a part of an interesting encounter. the people of interest are individuals who have made a mark on Imperial society for good or bad, and each story seed is a core idea for generating an entire scenario. This product was designed for use with Mongoose Traveller, but is compatible with all versions.
