American Conspiracies: Lies, Lies, And More Dirty Lies That The Government Tells Us

Synopsis

In this explosive account of wrongful acts and ensuing cover-ups, Jesse Ventura takes a systematic look at the wide gap between what the government knows and when the government knows it, and what is revealed to the American people and when it is revealed. The media is complicit in these acts of deception, often refusing to consider alternate possibilities and dismissing voices that diverge from public opinion. In *American Conspiracies*, Ventura looks closely at the theories that have been presented over the years and examines the truth, as well as the lies. The assassinations of Abraham Lincoln, the Kennedys, and Martin Luther King Jr.â”these cases and more need to be re-examined in Venturaâ”s eyes. Was Watergate presented honestly, or was the CIA involved? Did the Republican Party set out to purposefully steal two elections? Has all of the evidence on 9/11 been presented, or is there another angle that the media is afraid to explore? And finally, is the collapse of todayâ”s financial order and the bailout plan by the Federal Reserve the widest-reaching conspiracy ever perpetrated? Nothing gets by Jesse Ventura in *American Conspiracies*.

Jesse starts out by telling us his first days as Minnesota's first Independent governor and how he was requested to meet with and answer some questions by those wonderful folks with the CIA down in the lower area of the Minnesota Capitol Building. He is obviously a conspiracy nut (and I don't mean that in a derogatory way) who takes his research seriously and is meticulous. He has said

"When I get denied something, I do the opposite of getting intimidated--I get angry." He's determined to get answers. He gives us an insight on the JFK, RFK and Lincoln assassinations, the Dr. King and Malcom X assassinations, and a great American hero whom most of the country has never heard. Marine Major General Smedley Butler prevented some of America's big name bankers and industrialist of what amounted to a take over of the country from FDR. These icons thought Butler was their man to pull it off. Instead, he read the Constitution and effectively brought an end to the conspiracy. I have a degree in American History and I wasn't aware that happened. He deals with the CIA and their escapades. He goes after Bush/Cheney and the stolen elections of 2000 and 2004. He takes us through the Jonestown Massacre. The first stolen election? Bush/Cheney you think? So did I, but he shows us how the Election of 1980 was the first stolen election. His take: "Reagan's people had cut a deal with Iran to keep the hostages beyond the presidential election, to ensure President Carter's negotiations with Iran failed and that he lost to Reagan." 9/11 is not a taboo subject for the former governor. Israel sent two senior agents of the Mossad to Washington in August 2001 to "alert the CIA and FBI to the existence of a cell of as many as 200 terrorists said to be preparing a big operation."

AMERICAN CONSPIRACIES arrives at a time when conspiracies, specifically American conspiracies, are in the news now more than they have been in years. Oliver Stone appears on the Bill Maher show with a copy of JFK AND THE UNSPEAKABLE by James W. Douglass, and the book becomes a national bestseller. Elsewhere, ABC news reporter Chris Bury, at a conference in Philadelphia, labels noted FBI whistleblower Colleen Rowley a conspiracy theorist on camera after she critiques the Bush administration's curious activities prior to 9/11. The phrase 'conspiracy theorist' is wielded as an all-purpose put-down by some, and unwillingly adopted by others who now question the 'official story' surrounding any number of events. As Rowley noted to her aggressive interviewer, a conspiracy is quite often simply "people deciding to do something bad". People who make such a decision aren't likely to announce it in a press release, hence the logical requirement of secrecy. Likewise, some misdeeds would require more than one person to be successfully carried out, hence the accompanying notion of collusion in private. Yet the idea of two, three or more people in key positions of power privately deciding to do something nefarious is viewed by the mainstream media as an invention of the mentally insane. Criminals might do it, the Mafia might do it, doctors or dentists or lawyers might occasionally do it (as folks from all walks of life are prosecuted for criminal acts every year), but the idea of certain politicians or elements within a government colluding to commit a criminal act is somehow viewed as beyond the pale.
