Customer Reviews

This series of books is fantastic! So many kids (and many adults) are anxious about the weather, understanding the weather helps make it less scary. These books are great to read with your kids, make great gifts and are a must have for any school or community library. The author thought of everything, at end of the book there are experiments you can do at home or in class, a glossary, and even recommend books and websites for further reading.

This book will help kids understand the weather. I like the idea of the Tornado Cake. We have company coming this summer and I'm looking forward to making the cake! Their Mom is a teacher in Cheyenne, WY. Thanks Belinda

Exceeded all expectations! Love the story with a teaching moment. I learned something and thought it was just for the little ones. My favorite new gift! May even want to go and buy a Stormy dog ;)
