## Customer Reviews

This book gives me clearly understanding about Wiccan spells. With this book, you will understand Wiccan from its past, creating your own book of shadows, Wiccan gods and goddess to evoke, spells, recipes, and evocation rituals, and a lot more to know in Wicca. I will share this book to others.

I have to give this book FIVE stars because this book made me believe in the power of Wiccan Spells. I am afraid to give it anything less. Seriously, I kinda got this to mess around with my kids for Halloween. This book is no joke. It is very serious. I actually got a little nervous like I could have let something loose just by reading it. BUT...nerves or not...it is such a FASCINATING look inside something that I never considered before that I could not put it down. Reading this book is kinda like playing with a Ouija board. It may start as a joke, but it rarely ends as one!!! So good and interesting!!!

It is a very interesting book! I just wanted to find out ore about this religion. I prefer my own religion,Christianity but I do like to look for other religions and how they came to be and what they do. I try to keep an open mind as my friends have different faiths.

Spells? Witchcraft? Potions? They're all just a metaphor in this book but were used to achieve a very similar effect in one's life. They change your routine into making it a lot more mystical in order to obtain a euphoric state in which you easily appreciate your life and be happy. It creates a balanced harmony, peace and healing. Your life is enthusiastically projected in a positive way whereas the "rituals" make your life a lot easier. I like this book and its content. I recommend this to all the people who happen to come across with this one. Maybe it's the spell that lead you to read this.

This book really helps me to understand the Wiccan book of Shadows and teaches as well on how to cast a spell. There are some steps herein on how to have a good start making own spell. This book was able to help find me my designated Wiccan god and goddess. And right now i am going to go get acquainted with different deities. This book had given me enough understanding about

Wicca.

There is a lot of misinformation and statements in this work concerning, being possessed by any deity called to your circle, ( the circle is a sphere of protection against negative energy, evil, or anything that would do you harm. ) I personally would NOT call this a " Book of Shadows " but a Book with some credibility in some areas. My advice is to acquire and read books on this subject, from different authors, the truth will not change, but the false and untrue, will change with every telling. ( who ever edited this work, must have failed English class in High School ! ) LOL

This book is a decent addition to any Wiccan's library, especially if you're a beginner like myself. It helps with so many tips and suggestions. The book takes you from the absolute beginning of having absolutely nothing for your altar to preparing your altar for rituals to helping you with the Gods & Goddesses to break down of each herb for spells and finally onto the spells. Karen Bonderud is very detailed and helps you step by step with every spell, herb, explanation, etc. This is a great starter book!

I find this book very fascinating to read, because I'm just beginning to familiarize with Wiccan traditions. I am eager to find out more about it. The collective misunderstanding about Wiccan culture is really unfair and having spells and witchcraft makes people think that it is a negative thing while in fact it is the opposite of it. I am glad to have this book to further understand everything about Wicca. It is also a great way for self-healing. I love this book!
