Customer Reviews

As a person like the majority of us who struggles to find her Inner Peace,I decided to take charge of my life and leave Stress, Depression and Anxiety and have less difficulty concentrating and to do that away from sugar cravings or relaxing pills.I purchased this book which brought me a new take on a mindful and enriched life by learning how:To cope with stressTo have a balance dietTo focus positive energyAnd most importantly surround yourself with nurturing people in addition to many other useful methods.I highly recommend this book to start and new life with very helpful tips and techniques.

I cherish the idea of transforming tasks into chances to contemplate. I took after creator's guidelines while washing utensils, it's a stunning feeling. I was feeling exceptionally excited. I'm extremely cheerful that I got this book.I've perused numerous books on care yet this book emerges in light of the fact that it's conversational and pragmatic. I would allude to this book in future. This book was extremely useful to me.

Really awesome writing! The MINDFULNESS: Mindfulness for Beginners is an helpful meditation book. I read the book several times and when I read this book, I thought as Sebastien Nezo made it his own language. Very simple writing that very easy to practice at home by reading the book. Everyone must read this book. I strongly recommend this book!

The Science behind mindfulness vague at best. Not what it presents itself as. Don't waste your time. Really Boring. Waste
