The Meccan Revelations (volume 1 Of 37) (al-Futuhāt Al-Makkiyya)

Synopsis

This is an English translation of the first volume of Ibn Arabi's famous book of al-futuhāt al-makkiyya. The Meccan Revelations is considered the most important book in Islamic mysticism. Ibn al-ʿArabī started working on this book in Mecca in the year 598 AH / 1202 AD; thus from here it takes its name, where he received the immense knowledge that he had broadcasted in this huge book from a spirit he calls the *ʾaḥī* passing young man (al-fatḥ al-faḥṣ) whom he met at the Kaaba. But it took him around thirty years to finish it in Damascus in the year 629 AH / 1232 AD, and then he rewrote it again between 632/1235 and 636/1239, just two years before he passed away. The book consists of 560 chapters that vary in length between as short as half a page and as long as several hundreds. Although it is now mostly printed in four condensed volumes, based on Bulaq edition, it is in total contained in 37 volumes according to Ibn al-ʿArabī's own arrangement, and each volume is normally divided into seven parts which may start or end regardless of chapters; thus some chapters are placed in more than one part or even more than one volume. Although this volume contains the first chapter of the five hundred and sixty chapters of the Futūḥ and a considerable part of the second chapter which is quite long, but we can consider this volume as an introduction to this immense book. As he normally did for other volumes, Ibn al-ʿArabī divided this volume into seven parts:

1. The First Part is a foreword (*khuṭbah*) to the book, but which can also be considered an abstract summary of Ibn al-ʿArabī's view of the world. He divided this foreword into two sections; in the first one he enclosed his spiritual addressing before the Prophet, may Allah have mercy and peace upon him, and his Companions and other prophets who all met in the world of imaginal realm (*ʿālam al-mithāl*) and whom he saw through a disclosure attended metaphysically in his heart. In this addressing he speaks about the spiritual hierarchy and the origin of spiritual and physical creation.
2. The Second Part is a list of the five hundred and sixty chapters which constitute the Futūḥ.
3. The Third Part is an introduction to the book, in which he explains the sources of knowledge and the difference between its three types: the intellectual science, the science of states and the science of secrets which he shows that it is highest and all encompassing science which actually includes all other sciences.
4. The Fourth Part starts with the first chapter of the Futūḥ in which Ibn al-ʿArabī explains the occasion that led him to this initiative and how he received the knowledge that he is going to broadcast in the book from a spirit he met while circumambulation around the Kaaba.
5. The Fifth Part is devoted almost entirely to explaining the ambiguous characters at the beginning of some chapters of Qurʾān and particularly *ʾAl-ʾUḥūd*: *ʾUḥūd...ʾUḥūd* (ʾAl-lif-lif-m-māʾim) of *sūrat al-Baqarah*.
6. In the Sixth Part he talks about the properties of the characters one by one.
7. The Seventh Part is devoted to explaining the

different terms he had used in this weird science of characters.

Customer Reviews

The whole learned Ibn Arabi society has practically convinced itself that translating Meccan Revelations is impossible. Yet, the author of this volume has no such fear. Of course, the text will never be an easy reading, either in the original or in the English translation, and there will always enough people criticizing this or that choice of words. Of course, half way through there may be a need to go back and change something in the earlier volumes, and the electronic format makes it easier. But please don't let it stop you, Dr. Yousef, the critics will go away, and your translation will remain.

Masha Allah, The translation of al-Futihat al-Makkiyya is very good and finally something to cheer for non Arabic speaking people like me. Eagerly waiting for volume 2 of The Meccan Revelations. May Allah reward you for your efforts.

Finally a translation of this book is arriving. This appears to be a working draft but it is still invaluable.
