The Modern Witchcraft Spell Book: Your Complete Guide To Crafting And Casting Spells

Synopsis

Hundreds of spells for the modern-day witch! At any given moment, you have the power to manifest lasting love, boost your prosperity, and shape your destiny. Written by Skye Alexander, spellcraft expert and the author of *The Modern Guide to Witchcraft*, this book teaches you how to harness your inner magic through incantations, potions, and charms. Whether you're looking to get the job of your dreams, rejuvenate your body, or bring good fortune to family and friends, each page provides you with a spell that can be re-created or personalized for your specific situation. With the tools in *The Modern Witchcraft Spell Book*, practicing witches will hone in on their natural talents and discover a whole new world of possibilities.

Customer Reviews

I recently bought this and I love it. I have many books on witchcraft and none even come close to this. This has a history, and many introductions into witchcraft and the things that are talked about in the book. It talks about stones and crystals and herbs and flowers and anything you would use for a spell! It has detailed descriptions on how and when to cast spells and omg I cant even explain how great this book is. I haven't been doing any spells lately and now I have so many new ones to try. It has spells for everything a white witch would need. Some you may have already done before but trust me this book is full of new things! Lots of yummy recipes also. I am so ready to try the relationship rescue pie, its a yummy apple pie that brings more love to relationships and its so clever and simple. So cute I can't stop talking about it. You HAVE to get this book. Amazing for

beginning witches and also experienced ones. You will all love it trust me!!!

One of the greatest books on modern witchcraft that you could purchase the spells are easy to understand easy to read and it explains everything you need to know from A to Z I definitely would recommend this book for anybody that is interested in witchcraft and spells anybody from beginner to intermediate to pro I definitely would recommend this book 5 out of 5

This book is amazing. Yes some parts are standard and I've them in other 'intro to Witchcraft/Wiccan' books but there is so much more information and well put together I wish I would have picked this book up months ago when I began this journey and recommend it to anyone wanting to learn.

My favorite spellbook I currently own and I'm that weirdo who collects them yet never does a single spell. The only slight nitpick is that she asks for tarot cards and once used, the card is harmed beyond repair. Some see Tarot as just cards or a game, but I take divination far more serious so I could never ruin any of my cards, even if its a spare deck I had laying around. But that's more personal to me.

Very interesting... I bought this out of curiosity and there is a lot of information that deals with meditation, and different religions, etc. It's interesting how everything is merged together. Fun read.

Nicely written and very easy to understand.

Great beginners book

This book and it's companion "The Modern Guide to Witchcraft" are a must-have for any witch's bookshelf. Love these books!
