Customer Reviews

While this book is very thorough and informative, it is a grammatical nightmare. Every few paragraphs contains a blatant error--even some spelling errors! For an academic book, this one was not very carefully examined prior to printing.

Outstanding book to understand how our government is supposed to operate. I enjoyed reading this book and the online class from Liberty University.

The content was fine but the book looked like it had been tossed into a wood-chipper with an assortment of highlighters at least once.

The book itself was very informative I'm just disappointed that I bought the kindle edition and cannot watch it on any of my devices.

All citizens should read this book which details the in's and out's of our government. I have definitely grown because of this book.

As described, and received on time. However, wish there a receipt included with packing, and would have given a five star rating.

The book is fine, just a little ruff on the edges. It's defintely better than paying full price!

This book had no writing in it and was exactly what I needed. Saved me a lot of money.
