## Customer Reviews

If you've read The Silver Crown, this writing's of a similar vein (note: same surname of Bridges...related people?) Its not a page turner in writing, but for the sake of knowing how THIS chapter of WOD concludes...how the prophecy the end times are fulfilled of the Perfect Metis of the battle btwn Zhyzhak and the last Gaian Kingan ending for a great werewolf series.... a seed of hope (of possibilities). For most of the characters, not so much.

I have read this series 3 times and am on my fourth time through...I have never done that with any other book or series and I read a lot...simply amazing. Words really can't describe it unless you read it so just buy it already!

It's amazing. Really the only TOJ book worth buying. The men and women that created WtA put their heart and soul into this game, and it shows in this final book...Just simply amazing...

I must say that I had enjoyed the novel. It did an excellent job of portraying King Albrecht as a hero worthy of renown. All the intrigues were excellently crafted. It did an excellent job of culminating all

the Werewolf lose ends. My only foible with the book is that the aftermath is a bit vague.
