Synopsis

Learn Secrets about Men And The Traps Women Fall Into That Most Women Will Never Know It's time to take back your power! Most women are very surprised when a man becomes distant, when they find out he wasn't as interested as he seemed, or worse, when everything he said turns out to be a blatant lie. Nothing hurts more than getting that gut-level feeling that says he doesn't love you anymore. It's time to learn about the traps most women fall into that take away their power. Here is some of what you'll learn when you'll start reading this book:- How women give away their power (and don't even realize it) - The important test you should never fail in any relationship- Why you should not be focusing on your beauty (or lack thereof) - Your most important bargaining chip (what it is and how to use it, most women don't think of this)- Not behaving or feeling like a high value woman and what to do instead to take your power back- Opposites Attract, or do they?- "The One". Is he the one? And why would this be a trap?- The Wrong Man (and what to do about it)- The MANipulator (and how to avoid being manipulated by any man)- A Subject to Avoid (when a woman talks about this subject, a man can't help it and will lose interest in her)- A trick to see if he's REALLY interested in you- Jealousy. When to use it and how to deal with it.- The Ex. Is she dangerous?- Your Looks. How to use them...and how to never use them (this is a trap many women step into).- The Overlapping Circles: the secret to a happy long-term relationship- How important are his friends to the relationship YOU have with him?- and more! Read this book to avoid much of the heart-ache that comes with finding and keeping the right guy. You can get started by clicking on the Buy Now button at the top of this page. Good luck! Brian

I'm a 36 year old woman and I can honestly say I'm having trouble finding the right man. I find it hard to get past the first couple of dates and even when I get a "lucky" and have a relationship, it fails. I noticed the same story always unfolds, regardless of who I'm with. So I figured it must be me. I must be doing something wrong. That's when I found and bought the book "21 Traps". What an eye opener! It was me! I was stepping into the attraction-killing traps Brian mentions. I was aware of some of the traps but have to admit that knowledge didn't prevent me from stepping into them time and time again. What I liked about Brian's book is that he explains how to not fall into any of the traps. I like the strategies he gives and have already tested a couple of them to great success. I can now see why my past relationships failed. Each and every time at least 3 or more of the traps were present. That cannot be an accident. Thank you Brian, I can see clearly now. Thanks for giving me back my power. I won't make these mistakes again! Jolene

I don't know about anyone else but I definitely wasn't an expert at dating and relationships out of the gate. I made so many mistakes, dated so many losers, and had my heart broken so many times over the years that I should write my own book. It would be pretty depressing though so, instead I would recommend that anyone who wants to short-cut the heartache read author Brian Keephim attracted's "21 Traps You Need to Avoid in Dating & Relationships." No joke - this is a list of twenty-one things and each chapter (one for each) is filled with some solid gold information that is sure to keep you on the path to finding the right person. As women, we have a tendency to play way too much towards the opposite sex, either dressing only to please them, going only to the places that they want to go, not being ourselves, or a myriad of other behaviors that aren't going to serve us long term. This is a difficult thing to get away from, some never do, and the author spends a lot of time instructing women to be themselves and to stop giving away their power. There are some other great tips in here as well that deal with things such as ex's, jealousy, and much more. This is a fantastic read that I would recommend to both men and women who want to find true happiness in a

relationship. I loved the stories that were woven throughout as illustrations of certain behaviors and found this to be a very worthwhile and well written read.

After being widowed for two years I reentered the dating scene. I had been married for 15 years. Once I was out there it was a rude awakening. So much has changed in the dynamics of dating as well as throwing all the technology and dating services into the mix. Needless to say, it was very daunting. I haven't had the most pleasant experiences. I found this book to be an amazing tool. It has helped me to brush up on my dating skills and recognize what I should and should not be tolerating, despite the changing times. Don't settle for less! Read this book! From a writing standpoint, as a fellow Author, it is very well written and easy to understand. JC Szot

Wow I love this book! I only wished it was out there when I was in the dating scene for the second time, it would of made my life so much easier. The author Keephimattracted really pointed out some really good views on picking the right person. Such as the do's and don't many people make while looking for the one. If I was in the dating world I would definitely find this book very helpful. I am going to for sure share this book with both of my daughters.

This book is very empowering...it has helped me to communicate in the right way, what I am expecting out of a relationship. Sincerely wish I had found this book earlier. Also makes you feel ok if you have to walk away, that it is alright to have expectations and if the person in your life cannot be what you need, cannot give you what you need, a real relationship, security, the steps you need to take to back away and find someone that is willing to give/ be what you need. Helps to give you confidence in your search for the relationship you are looking for.

I liked the book and learned a lot. I wish I practiced more of these behaviors to see if my last boyfriend would have stuck around :(I recommend this book to all women to understand what we can do to weed out the bad guys from the good ones, when to speak up, and to have your own life/hobbies. No one is perfect-- but why stay in a relationship with a guy who doesn't meet your standards or who disrespects you? If a guy doesn't love and respect you consistently and is not SHOWING YOU (or stopped) try to understand why, trust your gut, and decide what's best for you.

I'm recently divorced. So I'm trying to perfect my dating skills. I usually do well on my own from trial & error but I want to find the right person and remarry in a certain amount of time so I've started

reading relationship books to perfect this game! This one is extremely helpful. I'm even going to let my daughter read this one to help her navigate high school and boys better! I wish I had an early start at knowing the do's and don'ts so I'm going to prepare my girls!
