Customer Reviews

quick read but very informative and interesting. Great for the both the beginner and advanced. I will definitely be reading more about wicca.

Gives lots of good info and simple techniques!! Learned quite a few new things reading this. Author is extremely knowledgeable!!!

This book is very help full and I would highly recommend it to those who are just starting out. It's got all your basic information about Wicca and magik . I will be using it as a study book for my daughter who is home schooled. The author done really good on this book.

Very short, but holds a LOT of good info. I've been studying wicca for over a year and this book actually taught me something new, unlike Cunningham's which was recommended to me by several people. Highly recommend this quick but worthwhile read.

I. Choose this rating because is a raised Mormon and have always wanted to learn about other religions and I knew I always knew I didn't belong in the Mormon church and now I know why I could see and sense other things around me

I was just doing a bit of research for a novel, and came across this book. Solid, no-frills book of basic beliefs.

The book has a basic understanding for those starting in the way of Wicca. The negative I find is that it's almost similar to every other beginner Wiccan book, though I like how they've added in protection spells etc in for beginners so they can make sure they are safe from negative energy before practicing.

The book is very knowledgeable about the craft. I think it is a good reference for novice Witches even Crones. It will help you understand what exactly is Wicca and our rules which is simple harm none and do as Ye will. It goes into extensive detail explaining it to where you can understand it better.
