Our Haunted Planet

Synopsis

New Saucerian proudly presents the new 2015 edition of the classic "Our Haunted Planet" by renowned Fortean investigator John A. Keel. This is a carefully crafted facsimile of the original paperback version from 1970, long out of print. This 2015 edition is one that every serious Fortean, cryptozoologist, and ufologist should have in their library.

Description from the original dust jacket: Since the beginning of recorded time, mankind has been plagued by unknown forces and beings, baffled by archaeological phenomena, and haunted by the inexplicable accuracy - and inaccuracy - of prophecies and "visions." In the classic "Our Haunted Planet," John A. Keel brings into chilling focus strange truths about the earth and its mysterious inhabitants. Could an unseen, prehuman race have taken careful measures to remain hidden from surface dwellers? Are they still watching us from their secret hiding places, manipulating and misleading us, using us for their own entertainment, and controlling our actions? "Our Haunted Planet" is an entertaining survey of anomalous "Fortean" events such as UFOs, enigmatic stone monuments, Men in Black, missing ships and aircraft, phantom radio broadcasts, teleportation, missing time, black magick, tulpas, angels, demigods, tricksters, and much more. Unlike most ufologists, who settle on a literal interpretation of such phenomena, Keel is broad-minded and courageous enough to include all possibilities - including the impact of occultists and spies on the fields of ufology, conspiracy, and cryptozoology. Within these pages, modern "spooks" appear alongside the gods of the ancients, creating a mind-expanding pastiche that may either heal your soul, send you to the loony bin, or just keep you up all night as you ponder the meaning of its forbidden secrets. "Fertile moon-food for thought..." -Ivan T. Sanderson "Asks questions that we really don't want to admit we entertain..." -Gray Barker "Odd and interesting..." -David Letterman "Makes you wonder what the hell is really going on..." -Jim Moseley

John A. Keel (1930-2009) is best known for his 1975 book THE MOTHMAN PROPHECIES which was the basis of the 2002 movie of the same name. As a writer interested in the anomalous and supernatural, he traveled worldwide to research firsthand and wrote several books on paranormal phenomena. Similar to Jacques Vallee (see his excellent PASSPORT TO MAGONIA and his other books on UFOs), Keel came to the conclusion that phenomena such as fairy folk, UFO aliens, and other strange apparitions are likely produced by the same source: these 'elementals' may actually be 'a part of the human psyche' but he has coined the terms 'ultraterrestrial' or 'parahuman' to describe these beings who have influenced humans throughout history. They manifested as the 'gods' in ancient times and have always exercised an open or covert influence on human development and beliefs. Keel states: '...the earth has two histories: the history taught in our colleges and schools, and the real but ignored history of a very ancient people and of strange forces that have often supervised human events.' He points out that scientists usually ignore anomalous phenomena and says 'Although this sort of evidence is superabundant, it has never been systematically studied by trained scholars. Instead, this material has fallen into the hands of assorted cultists and students of fringe pseudosciences. It has been used to advance belief in everything from lost Atlantis to extraterrestrial visitants from some distant planet. To subscribe to any one of these multitudinous beliefs is to exclude all other possibilities. We should consider every possibility, avoid belief, and accept only the hard facts.' OUR HAUNTED PLANET covers a wide range of anomalous phenomena from ancient times to the present.
