Customer Reviews

The Vedas was transcribed in an extremely easy to read version instead of a harder to read text. I loved this book because all 4 Vedas were included instead of me having to buy 4 separate books!! I will warn the book is large and takes a while to get through but that's because the Vedas are extremely in depth. The book is also very well bound with great text.

This is a really great collection of Sanskrit scriptures at a great price too! Way cheaper than buying all 4 Vedas separately. It looks and feels kind of like a college textbook but still a great buy!

This is probably the best English translation you'll find for a decent price.

This is a horribly printed book. Perhaps the worst layout I have seen in any book ever. The printing on the spine is off so much that it is bleeding onto the back cover. I am seriously considering returning it.

This is a dense collection of books that I am not even partially through, but with my limited knowledge of the Vedas they are faithfully translated, and in easy-to-read language.

Very detailed text. Great information but it can seem a bit long winded and dull at times. Very concise with some good advice.
