Customer Reviews

When Amelia Kellaway, a New York lawyer, decides to throw away her successful, but extremely boring career and follow her dream, everyone thinks she's gone crazy. Amelia does not want to spend all days of the week cooped up in an office any more. She wants freedom, she wants to explore the great outdoors, camp under the stars, walk miles and fend for herself for months, away from civilisation. But her dream is immediately cut short before her adventure has even begun. An act of kindness throws her into a terrifying nightmare that will see her fight and run for her life. I'm not sure if this is just a coincidence or the story behind this book, but 'Left for Dead' made me think of Amelia Earhart, the famous aviator who disappeared without trace in 1937 while performing a solo flight over the Pacific Ocean. Just like the famous aviator, for everyone else, the Amelia in this story disappears from the face of the earth while on a solo expedition. But there's one difference. No one is expecting her back for months, so no one raises the alarm. This story is very suspenseful and fast-paced and being short, I read it very quickly. It starts off with a very tense, terrifying scene and from then on, it kept me on the edge of my seat. Through her words, and vivid descriptions, the author excellently portrays the sense of loneliness, the solitude, Amelia's fear and hopelessness, the vastness and beauty of the land and the 'voice' of nature. I admired Amelia's perseverance, her courage and her fight for survival. I'm not sure I would have lasted as long as she did in those treacherous conditions. My heart went out to her and I wished I could help her in some way.
